Please amend claim 1 to read as follows:

1   1. (Amended) An interactive computer controlled display

2   system with speech command input recognition comprising:

3   means for predetermining a plurality of speech commands

4   for respectively initiating each of a corresponding

5   plurality of system actions,

6   means for providing for each of said plurality of

7   commands, an associated set of non-command speech terms,

8   each term having relevance to its associated command,

9   means for detecting speech command and non-command

10   speech terms,

11   means responsive to a detected speech command for

12   displaying said command, and

13   means responsive to a detected non-command speech term

14   having relevance to one of said commands for displaying the

15   relevant command.

Please amend claim 6 to read as follows:

1   6. (Amended) A method for providing speech command input to
2   an interactive computer controlled display system with
3   speech command input recognition comprising:
4   predetermining a plurality of speech commands for
5   respectively initiating each of a corresponding plurality of
6   system actions,
7   providing for each of said plurality of commands, an
8   associated set of non-command speech terms, each term having
9   relevance to its associated command,
10   detecting speech command and non-command speech terms,
11   displaying a speech command responsive to its detection
12   as a speech command, and
13   responsive to a detected non-command speech term having
14   relevance to one of said commands displaying the relevant
15   command.

Please amend claim 11 to read as follows:

1   11. (Amended) A computer program having program code

2   included on a computer readable medium for speech command

3   input recognition in an interactive computer controlled

4   display system comprising:

5   means for predetermining a plurality of speech commands

6   for respectively initiating each of a corresponding

7   plurality of system actions,

8   means for providing for each of said plurality of

9   commands, an associated set of non-command speech terms,

10   each term having relevance to its associated command,

11   means for detecting speech command and non-command

12   speech terms,

13   means responsive to a detected speech command for

14   displaying said command, and

15   means responsive to a detected non-command speech term

16   having relevance to one of said commands for displaying the

17   relevant command.
